Overview

Community Resource and Referral Centers (CRRC) are places where Veterans who are homeless or at risk of homelessness can get connected to stable housing and supportive services. Through the National Center on Homelessness Among Veterans, this “one-stop shopping” homeless service model is being tested in densely populated areas, strategically located sites across the country. CRRCs are collaborative, multi-agency, multidisciplinary programs that provide access to housing, health care, job development programs, and other VA and non-VA benefits.

Goals & Objectives

The primary goal of the CRRC is to provide rapid and comprehensive housing related services to Veterans who are experiencing homelessness, especially the chronically homeless, and to assist at-risk Veterans in maintaining their current housing. CRRCs are committed to increasing access to homeless services by creating a welcoming environment for integrated service delivery.
